**Subject:** Intern projects

I've been meaning to touch base with you on intern projects. I have a few ideas. There was some HQ money they were looking to spend that could have done some of this work like directories, databases, etc. for PFAS but we will need projects for an intern.

I did ask HQ to do an audit of MWRA since they need to get some projects on the books though. Will forward you that request.

Lets carve out some time for intern project discussion at some point though
